

Date: AUG 93

Flight: A B C D E F

INSPECTOR: _____

Instructions: For each point awarded, fill in the O with pencil. When tallying score, count the number of bubbles filled. The confidence and no delays criteria for gen. knowledge covers the entire inspection (i.e. from reporting to leaving). An inspection criteria in the uniform section, such as L boot, is worth ONE point. There are three circles for the three cadets to be inspected, i.e. the first column is the first cadet to be inspected, and so on. Scoring is the same as the gen. knowledge.
